========================
Please contact me to discuss your requirements to determine how I can utilize my skills to help you..

Experience

Fullstack developer
Oristouniversal
Apr 2021 - Present (1 year 5 months +)
I was tasked to create a web app to advertise the companies chemical products and connect them with their customers using Sendinblue email service and Whatsapp API in contact form and page respectively. As the only developer involved in the project.

- I built the web application using Laravel blade, Laravel, Tailwindcss and Alpinejs.
- I hosted the web application using shared hosting and was in charge of managing ssh interactions.

Web Developer
Opiofiber

Feb 2019 - Dec 2019 (11 months)

I created the website to help advertise the companies manufactured products.
- I created the website using html, css and jquery.
- I hosted the website on garantor using shared hosting services.

Web Developer
Soughtoutroofing
